

**alpha interior.**<sup>®</sup>  
Bedding Solutions

## Key steps

**2008**

**d'accord**

D'accord start bedding production, based in Poland and export products in Europe.

**2018**

**Alpha interior**

Creation of its own bedding factory in Poland, employing 60 people in production.

**alpha interior**

**2019**

Alpha establish a sales team in France, based in Paris to manage and develop product exports.

**2022**

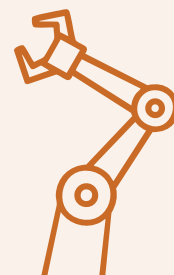

Alpha is starting to invest in robotics and machinery for upholstery products. Company's revenue reach 10 million euros.

**2024**

Construction of the new factory 10000m2 : matching our ambitions.

**2025**

Company exceed 170 employees in Poland. Official opening of the new factory in September.

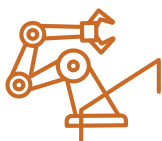

# Our main strengths

## Customizable products

Wide choice of fabrics, colors and finishes.

## Wide price range

From budget friendly to premium options

## E-commerce ready

products optimized for online sales

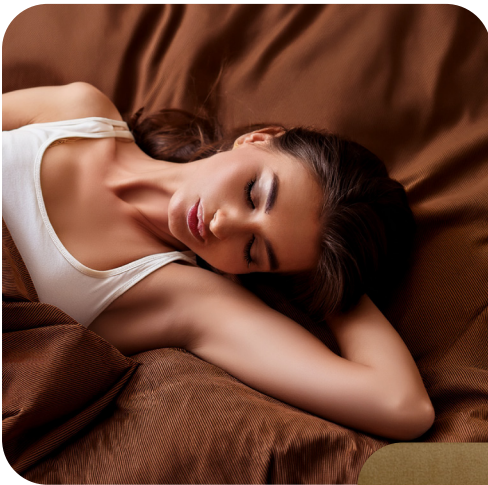

## Smart storage solutions

interchangeable covers,  
foldable headboards & more

Seashell headboard

**From cozy classics to  
designer looks —**

— Alpha Interior got you covered.

Comfy looking headboard

**100%**

of our revenue comes from exports. Alpha is firmly oriented toward Europe, it is in our DNA.

**200**

employees in Poland and France. Craftsmanship expertise, creative design, and a dedicated sales team.

**42 years**

of experience in wood and bedding. Solid expertise dedicated to reliable and durable products.

**200 000**

products manufactured each year in our factory: storage beds, headboards, boxsprings, storage units, and many more.

**10 000 m<sup>2</sup>**

entirely dedicated to bedding production. A modern factory to support our growth and your volumes.

**16 trucks**

leave our factory every week. Controlled and secure logistics thanks to reliable transport partnerships.

A large blue robotic arm, branded 'AMRIEAT', is positioned in a wood processing factory. It is situated behind a safety fence and is working on a conveyor belt system that carries long wooden planks. The background shows stacks of raw wood and other industrial equipment.

A new-generation robot  
offering unmatched manufacturing  
precision...

This section of the image shows three workers in a wood processing factory. In the foreground, a worker in a blue and red plaid shirt is working on a wooden frame. In the background, another worker in a dark blue shirt is using a tool on a wooden structure. The floor is covered with large stacks of processed wooden planks and frames.

... Not to mention the expertise  
of our skilled workers.

## Values & vision

### Comfort & Well-being

At Alpha Interior, we believe that restful sleep is essential to everyday well-being. That's why we apply rigorous standards of excellence to everything we produce. Each bed is crafted to provide optimal comfort, durability, and peace of mind. These values also extend to our team, through a supportive and caring work environment.

We manufacture high-quality beds every day with consistent precision whether for small or large-scale production. We work hand in hand with wood trading specialists and source only the finest European timber. The result: reliable, long-lasting beds that meet the highest standards.

### Expertise

### Innovation

Innovation is at the heart of Alpha Interior. We constantly anticipate trends, source high-performance materials, and work with trusted partners to offer beds that combine design, technology, and comfort. Every piece is carefully traced and produced in line with strict quality requirements.

We are committed to responsible production. By sourcing sustainable materials and manufacturing locally, we minimise our carbon footprint. We are also investing in automation with advanced robotics now used in the production of our beds combining efficiency and scalability while maintaining high quality standards.

### Ethics & Sustainability

### Transparency

We value transparency at every stage of our production process. From material sourcing to final assembly, we openly share our practices and commitments to build lasting, trust-based relationships with our clients.

## Sustainable collection

This collection has been specially developed with a strong commitment to the environment. It features three products designed using natural, responsibly sourced materials, offering an eco-friendly alternative without compromising on quality or comfort. Each item in the range reflects our dedication to reducing environmental impact.

### Sustainable base & headboard

Crafted from sustainable materials such as cotton and linen. The padding is made from a blend of hemp and coconut fiber, providing both comfort and durability. Designed for those who value quality, sustainability, and a healthier lifestyle, this set combines style, functionality, and environmental responsibility.
